Those who have taken the opportunity to inspect Watermark have been overwhelmed by the unique nature of the complex, its attention to detail as well as the spaciousness and luxury of the apartments .

Watermark is selling fast and with only 50 apartments in the complex early inspection is a must.

RESIDENT TAKES THE GOLD!

Five GOLD one SILVER for "our Rod" at The World Masters Games.

Rod's transition to rowing began as a boy in Wollongong where Rod rowed his Dad, fishing in a wooden row boat.

Over the years Rod has had a link to the water with canoeing and sailing. 20 years ago, when he was passing some rowers he thought "I'll have a go at that" He was fortunate enough to meet up with Spencer Grace, an ex-Olympian, who taught Rod the art of Rowing. Until 7 years ago Rod rowed for pleasure but he decided to join a team and commenced rowing competitively.

Over the years Rod modestly claims he's had mixed results but has many medals to prove his skill.

He competed in the Games in Zagreb in Croatia in 2005 and competes in many Regatta's, a favourite being the "Annual Head of the Yarra" in Melbourne.

Rod's current crew joined together in 2006 and have trained 3 days a week on water and 1 day on a machine to prepare for the Sydney Masters. Rod says, He was extremely lucky to have been in the team and it would not have been possible without the dedication and enthusiasm of all the crew.

Rod says they may be seniors but remain very competitive and the plus is the improvement in fitness. Rod also enjoys the companionship of his team members and the opportunity to row with many ex-Olympians who contribute to his technique and rowing skills.
